Thanks for this.

How does this affect the peer review?

Hi Adam, I have a statement on the extension. Please attribute to the Agency.

EPA has announced an eight month extension to September 30, 2013 for the public comment period of the draft research report titled, "Investigation of Ground Water Contamination near Pavillion, Wyoming." During this time EPA will continue its public outreach activities including meeting with key stakeholders and posting additional technical information on the agency's website. This extension will allow the public additional opportunity to comment on EPA's draft report and the latest round of sampling conducted by EPA and USGS. The Agency will take into account new data, further stakeholder input, and public comment as it continues to review the status of the Pavillion investigation and considers options for moving forward.

Richard,

I left you a voicemail already, but wanted to follow up with an email.

Can you give me a call when you get a chance? I have a couple of questions regarding the decision to extend the comment period on the Pavillion draft report until September.

Thank you,

Adam Voge
